Higher Education Scholarship

The very concept of instituting scholarships to meritorious students to pursue higher education was an offshoot of the declared motto of the Kerala State Higher Education Council; that is to bring about equity and excellence in higher education sector. Act 22 of 2007, by which the KSHCEC was set up, empowers the council to evolve schemes for providing equitable opportunities for higher education through scholarships and free ships and financial assistance to the needy students. Invoking the foregoing provision of the Higher Education Council Act, a unique Higher Education Scholarship Scheme was framed and launched in 2009. One thousand first year undergraduate students who pursue studies in science, humanities, social science, and business study streams in Government/Aided Colleges and Universities of the State are selected for the scholarships every year. The scholarships of the awardees so selected would be renewed in the ensuing years till they complete their post graduation. Students pursuing professional courses are not eligible for Higher Education Scholarships of the Council.

Welcome to the Online Portal of the INSPIRE Programme

"Innovation in Science Pursuit for Inspired Research (INSPIRE)" is an innovative programme sponsored and managed by the Department of Science & Technology for attraction of talent to Science. The basic objective of INSPIRE is to communicate to the youth of the country the excitements of creative pursuit of science, attract talent to the study of science at an early age and thus build the required critical human resource pool for strengthening and expanding the Science & Technology system and R & D base. A striking feature of the programme is that it does not believe in conducting competitive exams for identification of talent at any level. It believes in and relies on the efficacy of the existing educational structure for identification of talent.
